- Develop and validate database disaster recovery scenarios and plans
- Implement database management, auditing and monitoring solutions

### Education and Experience:

- 3 or more years completed of a Computer Science or related degree program
- Familiarity with database concepts such as views, stored procedures, foreign keys, indexes, normalization, and backups
- Some experience with SQL Server 2005 or later and writing Transact-SQL
- Experience with SQL Server Reporting Services (SSRS), SQL Server Integration Services (SSIS), or SQL Server Analysis Services (SSAS) would be an asset

## Required Skills and Abilities:

- A deep, growing, intimate relationship with Jesus Christ
- A genuine desire to see people's lives changed
- A professional approach and demeanor
- Software Analysis Skills
- Database Design and Programming Skills
- Object-Oriented Programming Skills
- Can thrive in a fast-paced work environment
- Be highly organized, detail-oriented, self-motivated
- Articulate oral and written communicator
- Ability to Multi-task and handle different projects and changing priorities
- Willing to work in a team focused environment
- Ability to take initiative and effectively solve problems
- Ability to maintain strict confidentiality

## Funding:

This position requires Ministry Partner Development. The successful candidate will have the privilege to build a partnership team which provides financial and prayer support for the ministry. The financial support will cover the costs of the candidate's salary and ministry expenses. Power to Change believes that Ministry Partner Development is biblical and God will provide everything necessary to fulfill the calling into ministry: finances, emotional strength and perseverance. Building a ministry partnership team is an integral part of being in ministry. There are many opportunities to bless and encourage the partnership team. Power to Change is committed to providing training and coaching that ensures success in Ministry Partner Development.
